DO NOT SELECT A LANDSCAPER UNTIL YOU HAVE MET WITH WILSON LANDSCAPE DESIGN!!!!

Last summer, we met with four landscapers and I was about to select one of the first three ho-hum landscapers (line up the bushes here, put a couple of flowers there, blah blah) and as a last ditch effort, I decided to meet with one more...Wilson Landscape Design. John showed up in flipflops, doesn't try to "sell" you on anything, and is so humble and understated. What is MOST important is that he just "gets it." I am whimsical and wanted our landscaping to reflect that feeling. John not only was creative in his design but he LISTENED to what would make me happy and created our unique front yard with beautiful rocks, and boulders, and trees, and grasses, and flowers. When he said "next spring, the magic will happen," I kinda rolled my eyes thinking is this guy kidding. And, he was absolutely right, this spring, the magic did happen as every plant, bush, tree, and flower returned, bursting with energy and blossoms and colors and I think our yard is the envy of the neighborhood. We then asked Wilson Landscape Design later to put in our sod in our backyard (including filling it with dirt), installing a sprinkler system, up and down landscape lighting (his idea on the down landscape lighting which is fantastic,) adding other ornamental grasses in the back, and building the concrete pad that my She Shed now sits beautifully, plus doing our spring clean up of a billion leaves. Over this past weekend, I noticed that our grass had a fungus and the team came out immediately to treat it. The guys that work for Wilson Landscape are also incredible, too. They have been with him for years and their work is impeccable; there isn't a lazy bone in any of them and after a hard day of digging and planting, they rake and clean up and sweep to make the finished product beautiful. I really can't say enough about Wilson Landscape; and his wife is also lovely and handles the behind the scenes stuff. My beautiful amazing yard speaks for itself. Please stop by to take a look...people stop by all the time to tell me how much they love it.
